Common Council Prioritizes Pothole Research and Monitoring

*The Buffalo Common Council Calls on Department of Public Works and
311 Center to Submit Monthly Reports*

Buffalo, N.Y. - The Buffalo Common Council is scheduled to adopt resolution, “[22-652 : Pridgen, Et Al - Pothole Research and Monitoring](#)” at today’s 2:00 PM Meeting.

The Resolution requests that Public Works and 311 submit monthly reports to the Common Council to collect better data on potholes in the City of Buffalo. The reports will list specific locations where potholes are being listed and repaired. Along with this, the Common Council requests that Public Works create a system to follow up on companies that open streets for repairs and return the street to good condition. With residents in the City of Buffalo voicing concerns about potholes and deteriorating infrastructure, the Common Council is prioritizing a data driven approach towards pothole monitoring.

The 311 Call and Resolution Center is a resident’s best option for reporting potholes. The Common Council urges all residents to report pothole issues to 311. To file a report, please follow this link: <https://www.buffalony.gov/463/Contact-311>

A copy of the resolution is attached. To view this and all Council items, visit our meeting portal at buffalony.igq2.com. For questions or more information, please contact the Central Staff Office at (716) 851-4616 or councilstaff@buffalony.gov.
